

NUMBER EIGHT, NUMBER OF KINDNESS

MOHAMMAD REZA MOLAEI

We are glad to publish the volume **eight** of JDSGT.

We would like to call *number eight* as the number of *kindness*, because of the following reasons.

- (i) As we know number *four* is the number of "justice", because 2 is the unique nonzero solution of the equation $x + x = x \times x$, and $2 + 2 = 2 \times 2 = 4$.
- (ii) *Two* is the number of *belief*, because "The God" and "Satan" are two points in a belief.
- (iii) Justice and belief are two essential specialities of kind people and their combination with " $\times$ " as the strong operation of real numbers will create number $4 \times 2 = 8$.
